ORGANIZATION

The Idyllwild Water District was formed on March 21, 1955 for the purpose of providing a domestic water supply to the community of Idyllwild, California under Section 30000 of the California Water Code. Improvement District No. 1 was established by Board action on March 10, 1966 to provide wastewater services within the community.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the Idyllwild Water District (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the District, as of June 30, 2021, and the respective changes in financial position, and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America and State Controller's *Minimum Audit Requirements for California Special Districts*.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the State Controller's *Minimum Audit Requirements for California Special Districts*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and OPEB schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other reporting required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our reports dated November 9, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Rogers, Anderson, Malody & Scott, LLP.
San Bernardino, California

MANAGEMENT'S DISCUSSION AND ANALYSIS

The intent of the management's discussion and analysis is to provide highlights of the Idyllwild Water District's (the District) operational and financial activities for the fiscal year ended June 30, 2021. Readers are encouraged to review this section in conjunction with the accompanying financial statements and notes

OVERVIEW OF THE FINANCIAL STATEMENTS

The District operates under California Irrigation District Law as a utility enterprise. As such, the District presents its financial statements using the economic resources measurement focus and the full accrual basis of accounting, similar to methods used by private sector companies. These financial statements are designed to provide readers with a broad overview of the finances and also present changes in cash balances, and information about both short-term and long-term activities of the District. There are three required components to these statements: the Management's Discussion and Analysis (MD&A), the financial statements, and the notes to the financial statements. As an enterprise fund, the District's financial statements include four components:

- 1) Statement of Net Position presents information on all of the District's assets, liabilities, and deferred inflows/outflows with the difference between the two reported as net position. The statement of net position provides the basis for evaluating the capital structure of the District and assessing its liquidity and financial flexibility. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Net position is displayed in three categories: net investment in capital assets, restricted, and unrestricted.
- 2) Statement of Revenues, Expenses, and Changes in Net Position presents information which show how the District's net position changed during the year. All of the current year's revenues and expenses are recorded on an accrual basis, meaning when the underlying transaction occurs, regardless of the timing of the related cash flows. These statements measure the success of the District's operations over the past year and determine whether the District has recovered its costs through water sales, user fees, and other charges.
- 3) Statement of Cash Flows provides information regarding the District's cash receipts and cash disbursements during the year. These statements report cash activity in four categories: operating, noncapital financing, capital and related financing, and investing. This statement differs from the statement of revenues, expenses, and changes in net position in that it accounts only for transactions that result from cash receipts and cash disbursements. As in the past, the statement of cash flows continues to reconcile the reasons why cash from operating activities differ from operating income.
- 4) **Notes to the Basic Financial Statements** provide a description of the accounting policies used to prepare the financial statements and present material disclosures required by generally accepted accounting principles that are not otherwise present in the financial statements. The notes are located immediately following the financial statements.

THE DISTRICT'S OPERATIONS - AN OVERVIEW

The District operates under the authority of Section 30000, Division 12 of the California Water Code and engages in water and wastewater activities, which are classified, as "proprietary". These activities are accounted for much like that of a private business using the full accrual method of accounting for financial transactions. Major activities include production and treatment of groundwater; sale and delivery of water to domestic and commercial accounts; and collection, treatment, and disposal of wastewater. The District also owns a small fleet of vehicles and other rolling stock to support the various operating activities for water and wastewater.

FINANCIAL HIGHLIGHTS

WATER SALES:

Water sales increased for the year by \$121,086 or 8.8% from the prior year's amount and ended the year at \$1,501,282. This is attributed to a changing rates for residential and commercial. Total cubic feet sold for the fiscal year was 10,204,966. The District is in Stage Two for water conservation.

WASTEWATER SALES:

Wastewater service charges increased by \$41,928 or 6.5% from the prior year and ended the year at \$687,957. The equivalent dwelling units is the same as the prior year at 1,377.0 EDU. There were no new residential or commercial connections added during the year.

CAPITAL ASSETS:

During the year, the water fund increased capital assets being depreciated by \$168,213, including \$6,000 of assets transferred from the wastewater fund. Overall, capital assets in the water fund decreased by \$202,796, primarily due to depreciation expense of \$334,461.

The water fund had the following major additions and deletions:

Additions:

 Main control panel upgrade 	\$71,150
 Safety ladder tanks (CIP) 	\$108,500
 Diversion project (CIP) 	\$17,137
Deletions:	
 2014 Toyota 4 Runner 	\$39,272
Tyler Software	\$25,541

During the year, the capital assets of the wastewater fund decreased by \$17,788, including a transfer of \$6,000 to the water fund. The decreased was primarily related to depreciation expense of \$48,687.

INVESTMENT INCOME:

This past year investment income experienced a decrease in earned percentages from the prior year. There are conservative investment policy restrictions on types of investments such as treasury bills, certificates of deposits, savings, money market funds, and local agency investment funds (state and local). Total investment income for the water and wastewater funds was a combined \$16,357.

PROPERTY TAXES:

This past year property tax revenues experienced an increase in revenues from the previous year of \$28,344 or 22.9%. Total property tax revenues for the year ended was \$532,015.

DISTRICT OPERATIONS:

Combined operating expenses, excluding depreciation expense of \$383,148 totaled \$1,806,417 which represents a decrease of \$108,150 or an decrease of 9.1% from the prior year. Decreases occurred in the following expense categories: General Plant Expenses, Wages, and Legal Expense.

DEPRECIATION EXPENSE:

The water fund's depreciation expense was \$334,461 and the wastewater fund's was \$48,687 for a total of \$383,148, an increase of \$11,666 or 3.14% from the prior year. The allocation of depreciation expense between the water and wastewater fund changed in the current year and will be applied prospectively.

TOTAL REVENUES:

Combined revenues for the year totaled \$2,794,932 compared to the prior year of \$2,605,001, an increase of \$189,931 or 7.3%. The increase is primarily due to increase in water sales and increase in wastewater services. The following table presents a comparison of revenues by category for the two years of 2019/2020 and 2020/2021:

COMBINED REVENUES BY CATEGORY FOR THE FISCAL YEARS ENDED JUNE 30, 2020 AND 2021

	2019/2	2020	2020/2021			2020/2021 Change			ge
Revenue category	Amount	% of total	Amount	% of total		Amount	%		
Water sales	\$ 1,380,196	52.98%	\$ 1,501,282	53.71%	\$	121,086	8.8%		
Wastewater services	646,029	24.80%	687,957	24.61%		41,928	6.5%		
Service fees and other	11,488	0.44%	14,207	0.51%		2,719	23.7%		
Investment income	60,114	2.31%	16,357	0.59%		(43,757)	-72.8%		
Property taxes - 1%	477,671	18.34%	506,015	18.10%		28,344	5.9%

Total net position	\$10,154,577	\$10,687,919	\$ 533,342	5.3%	

CHANGES IN FINANCIAL CONDITION OF THE DISTRICT:

The following provides explanations for some of the changes between fiscal years, as reflected in the above balance sheet data:

CURRENT ASSETS:

Current assets increased by \$874,493 or 17.5% from the prior year. This is due primarily from the increase in property taxes, reduced operating expenses for waste water and increase in collection of revenue. Service receivables decreased by \$7,569 or 9.8% and property tax receivable increased by \$3,939 or 23.1%.

CURRENT LIABILITIES:

Current liabilities increased by \$72,602 due primarily to accounts payable, payroll liabilities and compensated absences balances.

LONG-TERM DEBT OUTSTANDING:

The District currently has no long-term debt outstanding.

TOTAL OPEB LIABILITY:

The District had an actuarial firm perform calculation of the total OPEB liability for the "Retiree's Health Benefit Plan" in accordance with GASB Statement 75. A net increase in the total OPEB liability was recorded in the current fiscal year in the amount of \$125,457. See note 9 for more information.

CAPITAL ASSETS:

The District reported capital assets of \$6,584,781, net of accumulated depreciation, at the end of the fiscal year compared to \$6,805,365 in fiscal year 2021, a decrease of \$220,584 or 3.2%. See note 4 for more information. The following is a table comparing the change in capital assets between the two fiscal years:

CAPITAL ASSETS AS OF JUNE 30, 2020 AND 2021

				Change	
	2019/2020	2020/2021	Amount		%
Construction in progress	\$ 98,066	\$ 17,138	\$	(80,928)	-82.5%

DISTRICT REVENUES AND EXPENSES ACTUAL VS. BUDGET:

The table below compares actual revenues and expenses of the District to budgeted and/or projected amounts used by the District to monitor performance during the fiscal year.

ACTUAL VERSUS BUDGET FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Revenues	Actual	Budget	Variance
Water base fees and revenue Wastewater base fees and revenue Interest and other revenues Property taxes - 1% and standby fees	\$ 1,515,227 688,219 59,471 532,015	\$ 1,398,196 695,982 30,500 422,800	\$ 117,031 (7,763) 28,971 109,215
Total revenues	2,794,932	2,547,478	247,454
Expenses			
Water operations (including G&A) Wastewater operations (including G&A) Depreciation Other expense	1,355,348 451,069 383,148 72,025	1,767,004 684,695 - (500)	411,656 233,626 (383,148) (72,525)
Total expenses	2,261,590	2,451,199	189,609
Change in net position	\$ 533,342	\$ 96,279	\$ 437,063

The District's capital budget was \$1,146,500. The District incurred capital costs of \$162,536 during the year.

UPCOMING EVENTS:

The district is currently working on a Pipeline Replacement Project for Strawberry creek diversion.

The district is working on updating its Water Service Policies and Procedures and Employees Policies and Procedures.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT:

This management's discussion and analysis section is designed to provide Idyllwild Water District elected officials, our customers, and creditors with a general overview of the District's financial activities for fiscal year 2021 for public monies it receives and expends. If you have any questions regarding this section or require additional financial information, please contact the District, at 25945 CA-243, Idyllwild, California, 92549 or online at idyllwildwater.com.

As of June 30, 2021, there was \$71,150 of capital assets in accounts payable, and \$47,715 of abandoned CIP projects.

Note 1: Significant accounting policies

Description of reporting entity

The Idyllwild Water District was formed on March 21, 1955 for the purpose of providing a domestic water supply to the community of Idyllwild, California under Section 30000 of the California Water Code. Improvement District No. 1 was established by Board action on March 10, 1966 to provide wastewater services within the community. The financial statements of the Idyllwild Water District include the financial activities of Improvement District No. 1 as an oversight component of the District. The oversight responsibility of the District arises from the fact that the two operations are related financially and have the same management and governing board.

The District reports the following enterprise funds:

Water – This fund is used to account for the sale of water to domestic and commercial accounts. It is also used to account for the costs of distributing, new construction, and repair and maintenance of various water facilities and other related infrastructure.

Improvement District No. 1 Wastewater – This fund is used to account for the treatment and disposal of wastewater. It is also used to account for the costs of collection, new construction, and repair and maintenance of various wastewater facilities and other related infrastructure.

Measurement focus and basis of accounting

The District utilizes accounting principles appropriate for an enterprise fund to record its activities. Accordingly, revenue and expenses are recognized on an accrual basis of accounting.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods (water) in connection with the principal ongoing operations.

The District recognizes revenue from water sales, wastewater service fees and water availability fees as it is earned. Taxes and assessments are recognized as revenue based upon amounts reported to the District by the County of Riverside, net of an allowance for delinquencies.

Net position flow assumption

At various times the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position, a flow assumption must be made about the order in which the resources are considered applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Budgetary accounting

The District prepares and adopts budgets for both the Water and Improvement District, but does not present budgetary information because it is not legally required to adopt and adhere to a budget. All budgets are adopted on a basis consistent with generally accepted accounting principles.

Use of estimates

The preparation of these financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the statements. Actual results could differ from those estimates.

Note 1: Significant accounting policies, continued

Property tax calendar

Property taxes are assessed and collected each fiscal year according to the following property tax calendar:

Lien date	March 1
	1 1 4 41

Levy date July 1 through June 30

Due date November 1 – First installment

March 1 – Second installment

Delinquent date

December 10 – First installment
April 10 – Second installment

Under California law, property taxes and other charges (such as assessments) are assessed and collected by counties up to 1% of assessed value, plus other increases approved by voters. Property tax revenues are pooled and then allocated to agencies based on complex formulas prescribed by state statutes. The County of Riverside bills, collects and remits to the District property taxes and assessments through the County's property tax billing process.

Cash and cash equivalents

For purposes of the statement of cash flows, the District considers all investments purchases with a maturity of three months or less to be cash equivalents.

Deposits and investments

Investments for the District are reported at fair value as applicable.

Water receivables

No allowance for doubtful accounts is provided because management believes all receivables are collectible.

Materials inventory

Inventory consists primarily of supplies used in the maintenance of plant and equipment and is valued at weighted average cost using the first in/first out (FIFO) method.

Capital assets and depreciation

Acquisitions of property, plant and equipment of \$5,000 or more with a useful life of greater than three years are capitalized and depreciated. Contributed assets are recorded at their fair value at the date of contribution. Donated capital assets as recorded at their acquisition value at the date of donation. Self-constructed assets are recorded at the amount of direct labor and materials.

Depreciation is provided on the straight-line method over the following estimated useful lives:

Water District	<u>Years</u>
Source of supply	15 - 100
Pumping plant	7 - 50
Treatment plant	25 - 40
Transmission and distribution	40 - 60
General plant	3 - 40

Note 1: Significant accounting policies, continued

Capital assets and depreciation, continued

Improvement District No.1	Years
Subsurface lines	20 - 40
Wastewater treatment facilities	5 - 40
Wastewater disposal facilities	12 - 100
General plant	3 - 20

Net position is categorized as follows

- Net investment in capital assets This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted This component of net position consists of net position that does not meet the
 definition of "restricted" or "net investment in capital assets."

Other Post-Employment Benefits (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date: June 30, 2019 Measurement Date: June 30, 2020

Measurement Period: July 1, 2019 to June 30, 2020

Note 2: Concentrations

During the year ended June 30, 2021, the District has revenues from an unrelated party which amount to more than 10% of net sales. Net sales and accounts receivable to this customer for the year ended were as follows:

	Net Sales				Accounts	Receiv	able
		lmp	provement			lmpi	rovement
		Dist	rict No. 1 -			Distri	ct No. 1 -
	Water	W	Wastewater		Water	Wa	stewater
Customer A	\$ 117,675	\$	103,902	\$	8,972	\$	9,658

Note 3: Cash and investments

Cash and cash equivalents are displayed on the financial statements at June 30, 2021 as follows:

		Water	Improvement District No. 1			
Current assets:						
Cash and investments	\$	2,761,745	\$	2,776,980		
Certificates of deposit		25,885		160,905		
			•			
Total cash and investments	\$	2,787,630	\$	2,937,885		
Cash consisted of the following at June 30:						
Deposits with financial institutions	\$	1,248,703	\$	1,482,275		
Money Market	·	-		102,064		
Cash on hand		275		· <u>-</u>		
LAIF		1,512,767		1,192,642		
Certificates of deposit		25,885		160,904		
Total cash and cash equivalents	\$	2,787,630	\$	2,937,885		

The District is a voluntary participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. Each participant may invest up to \$75,000,000. Investments in LAIF are highly liquid, as deposits can be converted to cash within twenty-four hours without loss of interest. Also, LAIF is overseen by the Local Agency Investment Advisory Board which consists of five members, in accordance with State statute. LAIF is not currently rated by any rating agency. LAIF allows a maximum of 15 transactions per month, with a minimum of \$5,000 per transaction. Any withdrawal of over \$10,000,000 requires a 24 hour notice.

Interest rate risk

The District has adopted an investment policy which limits the weighted average maturity of the District's investments to one year as a means of managing their exposure to fair value losses arising from increasing interest rates.

Concentration of credit risk

During the fiscal year, the District did not hold investments in one issuer that represented 5% or more of the District's total investment portfolio. Investments issued or explicitly guaranteed by the U.S. government as well as mutual funds, external investment pools and other pooled assets are exempt from disclosure.

Note 3: Cash and investments, continued

Investments authorized by the California Government Code and the Districts' Investment Policy

The table on the next page identifies the investment types that are authorized by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by trustees that are governed by the provisions of debt agreements, rather than the general provisions of the California Government Code or the Districts' investment policies.

Authorized investment type	Maximum percentage of portfolio*	Maximum investment in one issuer
United States treasury obligations	100%	Not applicable
US government sponsored enterprise securities	75%	Not applicable
California State warrants/notes/bonds	100%	Not applicable
Local Agency Investment Fund	67%	\$75,000,000
Money market mutual funds	20%	25%
Time certificates of deposit	50%	50%
District bonds	Not applicable	30%

Any other investment authorized by the provisions of CGC 5922 and 53601

Investments authorized by debt agreements

Investments of debt proceeds held by trustees (fiscal agents) are governed by provisions of the debt agreements, rather than the provisions of the California Government Code or the Districts' investment policies. The District currently does not have any debt or cash held by trustees.

Investment maturities at June 30, 2021 were as follows:

		Remainii			
		12 months	13 to 60		
Investment type	Fair value	or less	months		
Water District					
Local Agency Investment Fund	\$ 1,512,767	\$ 1,512,767	\$ -		
Certificates of deposit	25,885	25,885

^{* =} Surplus funds (monies not expected to be expended for at least six months from the date of investment of such monies.

Note 3: Cash and investments, continued

Custodial credit risk

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code requires that a financial institute secure deposits made by state and local governmental units by pledging securities in an individual collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the pool must equal at least 110% of the total amount deposited by public agencies.

California law also allows financial institutions to secure the Districts' deposits by pledging first trust deed mortgage notes, having a value of 150% of the secured public deposits. At June 30, 2021, the District's deposits (bank balances) were insured by the Federal Depository Insurance Corporation or collateralized as required under California law.

Fair value measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Non-negotiable certificates of deposit and investments in LAIF are not subject to fair value measurements.

Credit risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in certain investments in commercial paper, corporate bonds and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations. The District's investment policy further limits investments in Money Market Mutual Funds to funds that carry the highest rating of at least two of the three largest national rating organizations.

Net capital assets	\$ 691,075	\$ (11,788)	\$ -	\$ (6,000)	\$ 673,287

Note 5: Net position

The District has adopted net position reserve policies which clearly identify reserve categories and purposes while also setting target levels that are consistent with the District's mission, uniqueness and philosophy. The District believes the reserves are prudent fiscal management tools which provide a cornerstone of long-term financial management. The reserve balances are reviewed annually to ensure they meet the needs, current and long-term, of the District. At June 30, 2021, the District had the following reserves in unrestricted net position:

Net position reserves		Water	Dist	orovement rict No. 1 - astewater
Working capital Emergency	\$	112,500 150,000	\$	37,500 50,000
Capital improvement and replacement		150,000		50,000
Vehicle and equipment replacement		75,000		25,000
Vacation/sick/annual leave liability		16,810		5,603
OPEB		486,880		162,292
Total reserves	\$	991,190	\$	330,395

Note 6: Compensated absences payable

Vested or accumulated vacation leave is recognized as an expense and liability as the benefits accrue to the employees. Pursuant to GASB Statement No. 16, *Accounting for Compensated Absences*, only the vested portion of sick pay benefits are recognized as a liability.

	Beginning balance Additions			Additions Deletions			Ending balance		
Compensated absences	\$	24,838	\$	49,216	\$	(45,390)	\$	28,664	

Note 7: Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended June 30, 2021, the District participated in the Association of California Water Agencies Joint Powers Insurance Authority (JPIA), which was organized for the purpose of providing liability insurance for the member agencies. The JPIA is a risk-pooling self-insurance authority created under the provisions of California Government Code Section 6500. The JPIA is governed by a board consisting of a representative from each member agency. The board controls the operations of the JPIA, including selections of management and approval of operating budgets. The purpose of the JPIA is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage. The accounts and records of ACWA/JPIA are audited by an independent certified public accounting firm.

Note 7: Risk management, continued

The District has deductibles as follows:

Buildings, fixed equipment and personal property:	\$2,500
Mobile equipment:	\$2,500
Licensed vehicles:	\$1,000
Crime	\$1,000
Boiler and machinery	various

The District pays annual premiums for the coverages, which are subject to retrospective adjustments based on claims experience. The nature and amounts of these adjustments cannot be estimated and there were no instances in the past three years where a settlement exceeded the District's coverage.

Note 8: Employees' retirement plan – defined contribution

All permanent employees hired on or before December 31, 2013 are covered under the Idyllwild Water District Money Purchase Pension Plan (the Plan) 401(a) administered by the District through ING Pension acting as trustee. The Plan is fully funded by a contribution rate of 21.5% of eligible salaries and wages made entirely by the District. The Board of Directors of the District has the authority, in its sole discretion, to amend, reduce contributions or terminate the plan at any time.

The District adopted a new pension plan 457(b) starting January 1, 2014. For new hires on or after January 1, 2014, the District contributes 10% for each new employee and matching up to 5%, if the employee elects to contribute up to 5%. The 457(b) Plan is administrated by the District through ING pension acting as trustee.

The 457(b) Plan is also available to all current employees hired before December 31, 2013 however, the District will not provide matching contributions. In addition, District employees are also covered under Social Security, funded equally by the District and the employee, or as prescribed by applicable laws.

The District's contributions to the employees' retirement plans for the year ended June 30, 2021 were \$26,912.

Note 9: Postemployment benefits other than pensions

Plan description

The District has established a single-employer Retiree Healthcare Plan (HC Plan). This coverage is available for employees who reach the following: 1) age 55 and ten years of service (before 1/1/2014, closed to new entrants) or 2) age 65 with ten years of service (after 12/31/2013, open to new entrants). The healthcare coverage provided by the District meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. A separate financial report is not prepared for the HC Plan.

Plan benefits

For the closed plan, the District will pay a varied percentage (50% - 100%) of the retiree and spouses pre-Medicare medical premiums and 100% of the retiree and spouse supplemental Medicare and prescription drug coverage upon reaching Medicare age.

For the open plan, the District will only pay a varied percentage (50% - 100%) of the retiree and spouses Medicare supplement and prescription drug coverage.

Employees covered

As of the June 30, 2020 actuarial valuation, the following current and former employees were covered by the benefit terms under the HC Plan:

Active employees	7
Inactive employees or beneficiaries currently receiving benefits	6
Total	13

Contributions

The HC Plan and its contribution requirements are established by the Board of Directors and may be amended by the Board of Directors. For the fiscal year ended June 30, 2021, the District's cash contributions were \$54,293 in payments to for insurance premiums not reimbursed by a trust. Implicit contributions amounted to \$5,942 for total payments of \$60,235.

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2020 and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation dated June 30, 2019, based on the following actuarial methods and assumptions:

Actuarial assumptions:

Discount rate	2.66%
Inflation	2.50%

Salary increases 3.00% per year, used only to allocate the cost of

benefits between service years

Investment rate of return NA

Mortality rate⁽¹⁾ MacLeod Watts Scale 2020 applied generationally Pre-retirement turnover healthcare trend rate ⁽²⁾ 5.40% in 2021, fluctuating down to 4% by 2076

Notes:

- ⁽¹⁾ The mortality improvement scale was updated from MacLeod Watts Scale 2017 to MacLeod Watts Scale 2020.
- (2) Medical plan premiums are assumed to increase at somewhat higher rates than assumed in the prior valuation, with the ultimate trend of 5.4% per year

Discount rate

The discount rate used to measure the total OPEB liability was 2.66% percent. The District is currently financing its OPEB liability on a pay-as-you-go basis. The discount rate used in the valuation is based on the S&P Municipal Bond 20 Year High Grade Index.

Changes of Assumptions

The discount rate decreased from 2.79% in 2020 to 2.66% in 2021.

Changes in the OPEB Liability

The changes in the total OPEB liability for the HC Plan are as follows:

	Total OPEB Liability (a)
Balance at June 30, 2020	
(Measurement Date June 30, 2019)	\$ 1,380,054
Changes during the period:	
Service cost	101,592
Interest	40,665
Changes of assumptions	31,426
Plan experience differences	-
Contributions - employer	-
Net investment income	-
Benefit payments	(48,226)
Net changes in fiscal year 2020-2021	125,457
Measurement Date June 30, 2020)	\$ 1,505,511

Sensitivity of the total OPEB Liability to changes in the Discount Rate

The following presents the total OPEB liability of the District if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2020:

1% Decrease Current rate			1% Increase			
	1.66%		2.66%	3.66%		
Total OPEB Liability	\$ 1,784,990	\$	1,505,511	\$ 1,287,864		

Sensitivity of the total OPEB Liability to changes in the Health Care Cost Trend Rates

The following presents the total OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2020:

	Healthcare Cost Trend Rates					
	1% Decrease		Current rate	1% Increase		
Total OPEB Liability	\$ 1,282,928	\$	1,505,511	\$ 1,797,140		

Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability are recognized in OPEB expense systematically over time.

Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments 5 years

All other amounts

Expected average remaining serivce
lifetime (EARSL) 7.44 years at June 2020

OPEB expense and deferred outflows/inflows of resources related to OPEB

For the fiscal year ended June 30, 2021, the District recognized OPEB expense of \$108,200. The following is a breakdown of items impacting OPEB expense:

Service cost	\$ 101,592
Interest cost	40,665
Recognized deferred resources items	
Assumption changes	(5,659)
Plan experience	 (28,398)
Total OPEB expense	\$ 108,200

As of fiscal year ended June 30, 2021, the District reported deferred outflows of resources related to OPEB from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of Resources	
OPEB contributions subsequent to measurement date	\$ 60,235		\$	-
Differences between expected and actual experience		-		154,484
Changes of assumptions		46,727		53,910
Total	\$	106,962	\$	208,394

OPEB expense and deferred outflows/inflows of resources related to OPEB, continued

The \$60,325 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability during the upcoming fiscal year. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized as expense as follows:

Fiscal Year Ended	Deferred Outlfows/			
June 30:	(Inflows) of Resources			
2022	\$ (34,057)			
2023	(34,057)			
2024	(34,057)			
2025	(27,806)			
2026	(24,300)			
Thereafter	(7,390)			

Note 10: Contingencies

COVID-19 Considerations

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 outbreak in the United States caused business disruption through mandated and voluntary closings of businesses and shelter in place orders. The District's major revenue sources could still be directly impacted by these events, it is possible that this matter will negatively impact the District. However, the ultimate financial impact and duration cannot be estimated at this time, and no adjustments have been made to these financial statements as a result of this uncertainty.

Idyllwild Water District Required Supplementary Information Schedule of Changes in the Total OPEB Liability and Related Ratios Last 10 years*

Measurement Period	2020		2020 2019		9 2018		2017

Notes to Schedule:

Changes Since the Prior Valuation:

Discount rate: Decreased from 2.79% to 2.66%

Demographic assumptions: Assumed mortality, termination, and service retirement rates were updated from those provided in the 2014 experience study report to those provided in the 2017 experience study report of CalPERS. The District's plan population is not likely to produce credible rates based only solely on its experience. Actuary believes rates from the CalPERS experience study provide a reasonable estimate on the District's future demographic experience.

Mortality improvement: Scale was updated from MacLeod Watts Scale 2017 to MacLeod Watts Scale 2020.

Salary scale: Decreased from 3.25% per year to 3.0% per year.

General inflation rate: Decreased from 2.75% to 2.5% per year.

Medical trend: Updated to use the Getzen healthcare trend model sponsored by the Society of Actuaries.

Excise tax repeal: Actuary excluded the excise tax from the valuation results due to the December 2019 repeal.

The District does not have assets accumulated in a trust that meets the criteria of GASB 75 to pay related benefits.

^{*} Historical information is required only for measurement periods for which GASB 75 is applicable. Future years' information will be displayed up to 10 years as information becomes available.
